

DIY Under Deck Roof and Drainage Parts 1 & 2:

Materials and Supplies:

- 2" x 4" 's (the length of your deck, run at 32" intervals)
- AND/OR 1"x 2" 's (8' lengths, run the length of your deck)
- Metal Pole Barn roofing/siding (available in 16 foot lengths & in many different colors)
- Pole Barn screws (1 – 1 ½" long, same color as roofing material)
- Facia Board (if necessary, mine is 1" x 6" x 8')
- Gutter materials including: downspouts, angles, corners, end caps, elbows and 6" plastic pipe connectors)
- Gutter hangars
- Gutter sealant
- 1" Exterior decking screws
- 3" Exterior decking screws
- 100% Clear silicone
- 2 Dead men (made with 2 x 4's and cut slightly longer than floor to ceiling measurement)
- 2 Towels
- Tin snips
- Marker

- Level
- Drill and 1/8" bit
- Screwdriver (cordless or electric)
- Chop saw/ Miter saw
- Safety glasses
- Gloves (the pole barn siding has sharp edges)

You'll have a dry outdoor space in no time!
