I have a lot to do, and if I was allowed on a ladder I would have them [done](#). How inspiring, let's get those projects done, follow the LADY with the answers, The imagination and the willpower to get those projects done. They are not the dollar store kind, you know how to make a plastic plate a picture, or a candle holder made from a plastic candle holder, OH NO, she shows you how to upholster and make lovely window drapes and curtains, the ones that look like they came from an expensive decorating store. Also, the LADY CAN BAKE easy to follow recipes, cakes, cookies, and frostings. She can grout, lay flooring, sew, lay hexagon tile for countertops, I could go on and on. Take 10 minutes and watch some or even one video and you would be hooked.

Thanks for demonstrating this product, I have been using the "feed n wax" product for years, but never used "restore a finish". I am very impressed with its performance and how you applied it. Please let me know what grade of steel wool you used.
